

CADENZA

Advanced Capacity and Demand Management for European Network Performance Optimization

Responding to SESAR-ER4-16-2019: Innovation in Network Management

Presented by Radosav Jovanović, University of Belgrade - FTTE

Engage workshop on "Economic incentives for future ATM implementation"
21 June 2021

founding members

CADENZA formal overview

- Exploratory Research project, June 2020 – November 2022
- Overall objective: *define and evaluate the necessary changes in the current network management concept, including DCB and the associated regulatory environment, and identify practical opportunities to **improve overall network performance**.*
- Consortium:

CADENZA capacity-demand balancing process
